Fellow Superintendents,

Each and every year, professional representatives call on the school with products or services to help your staff. Oftentimes, you are faced with the dilemma of deciding who to meet with and which services could benefit your staff. I would endorse Saun Patterson of Insuring Success as one of those meetings that are beneficial for everyone. Saun is very professional in his presentation and answered any questions brought forward. He was well prepared in follow-up meetings with our staff and many people felt comfortable and elected coverage after seeing the benefits offered. His plans made sense for the school and the staff because there was no paper work on our end and if the plans aren't used they are 100% refundable. The worse possible outcome for people that take advantage of the program is they have created another saving account to eventually draw from.

I would recommend Saun and Insuring Success as a worthwhile investment for your staff and believe he will help your employees just as he has ours!

Respectfully,

Jason Mundorf  
Superintendent/Elementary Principal  
Anselmo-Merna Public School
